Quarterly update from
the Sea Point City Improvement District
(SPCID)

**JULY-
SEPTEMBER
2026**

FROM THE DESK OF THE COO

As we reflect on the July to September quarter, I am proud of the practical work taking place across Sea Point every day. Our teams remained focused on keeping the precinct safe, clean and welcoming, while supporting people who need care and connecting them with services that can make a lasting difference.

This quarter, our public safety teams recorded 8,075 proactive policing calls, our cleansing teams removed 6,600 bags of litter, and 202 individuals received support through our social-development work. These figures represent more than activity - they reflect the commitment of our staff and the strength of the partnerships behind the work.

From patrols and incident response to street cleaning, litter removal and the maintenance of public amenities, our services are built around shared responsibility. We are grateful to the City of Cape Town, law-enforcement partners, shelters, local businesses and community members who continue to work with us. Together, we can respond to challenges with dignity, consistency and care.

As we look ahead, we encourage residents, visitors and businesses to stay involved: report service issues, support registered shelters, shop local and help us protect the character of our neighbourhood. Thank you to everyone who helps make Sea Point a safe, clean and thriving place.

With appreciation,
Heather Tager
Chief Operations Officer (COO)
Sea Point City Improvement District (SPCID)

People first

Following a week of patient and consistent engagement, the Sea Point CID Fieldworker successfully assisted a 71-year-old man, who had been sleeping on the streets of Sea Point for approximately 18 months, into the Malmesbury Haven Night Shelter.

“

Heather Tager COO of the Sea Point CID - She thanks the City's Law Enforcement Displaced People Unit who came to the party and assisted with transport to the Malmesbury Shelter.

This is what a partnership is all about.

Sea Point Works Better Together

INVESTING IN A BRIGHTER SEA POINT

IN LOVING MEMORY OF

The Sea Point City Improvement District is saddened by the news of the passing of former board member, Peter Barnard.

Peter served on the SPCID Board from May 2007 to July 2023, dedicating many years of service to the Sea Point community.

Heather Tager, SPCID COO, fondly remembers Peter from his days at the well-known Ari's Souvlaki restaurant. Peter was the type of person who always carried an energy of happiness, friendly, welcoming, and always ready with a smile.

SPCID Chairman Jacques Weber said: "Peter was a consummate gentleman with a heart of gold, a great sense of humour, and the kind of person who always made those around him feel welcome. He will be remembered for his dedication to the Sea Point community and his willingness to always lend a helping hand."

Peter will be remembered as someone who generously gave his time to addressing the concerns of many residents in Sea Point.

Our sincere condolences go out to his family, friends, and all who knew him.

SERVICES & SUPPORT

SUPPORT SHELTERS

Handouts don't help, they hurt.

By supporting begging, you encourage destitute people to avoid shelters and choose a life on the street. Donating to a shelter changes the life of a homeless person.

Call **0800 872 201** for assistance with street people.

For all emergencies call **107** from a landline or **021 480 7700** from a cellphone.

GIVE HOPE, NOT HANDOUTS — SUPPORT SHELTERS THAT CHANGE LIVES:

When you give food or money directly to people living on the streets, it may keep them on the roads instead of encouraging them to seek long-term support at shelters. This can also create opportunities for petty crime in the area.

The best way to help is by supporting shelters and organisations that provide real care, safety, and pathways off the streets.

The City of Cape Town supports shelters for the homeless, including their own Safe Spaces, which offer dignified shelter, meals, social work services, and skills training. We also partner with organisations like The Haven and The Hope Exchange.

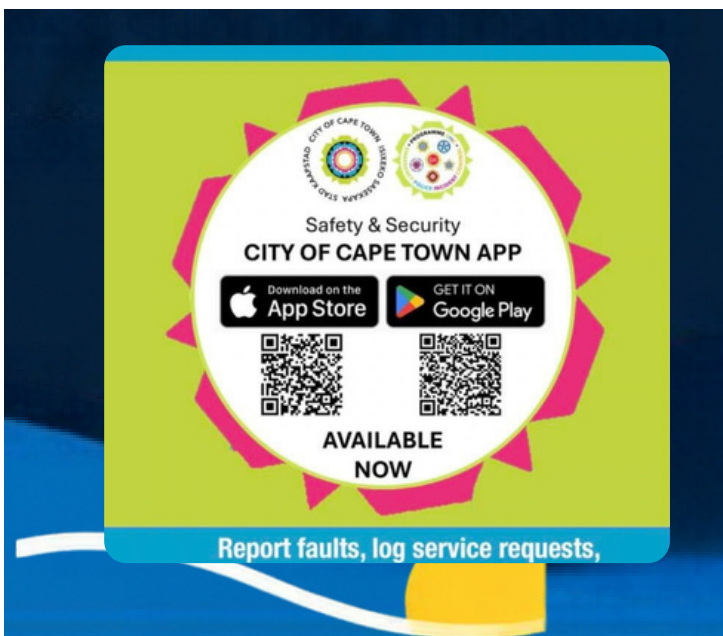

You can help by donating to registered shelters, volunteering, or contacting the City for guidance.

REPORT EMERGENCIES

Residents and businesses are encouraged to download the app.

Service requests can be logged via the City's online service-request platform or through the City Call Centre on 0860 103 089.

For life-threatening emergencies, contact 107 from a landline or (021) 480 7700 from a cellphone. For public safety emergencies within the SPCID, contact our office on (021) 434 1234 or WhatsApp 072 042 8626.
